

Remarks

Claims 1-2, 6, 14, 20, 26, 30-31, 37, and 53-58 are amended, claims 59-60 are added, and claims 35-36 are canceled. The amendments are intended to place the application in better form for appeal and are not intended to concede to the correctness of the Examiner's position or to prejudice the prosecution of the claims prior to amendment, which claims are present in a continuation of the present application. Claims 1-8, 11-12, 14, 16-17, 19-22, 24, 26-28, 30-34, 37-44, and 47-60 are pending.

The amendment to claims 1, 26, and 53-58, to recite "activated or genetically," is supported at page 4, lines 24-26 of the specification.

Amended claims 14, 31 and 37 are supported by originally-filed claims 1, 13-14 and 31, and at page 4, lines 24-26 of the specification.

Amended claims 2 and 30 are supported by originally-filed claims 1-2, 26 and 30.

Amended claims 6 and 20 are supported by originally-filed claims 6 and 20, respectfully.

New claims 59-60 are supported at page 4, lines 16-19 of the specification.

The Examiner is requested to note that the present Amendment was referred to in Appellant's Brief on Appeal mailed September 24, 2003 (see Section 4), and the claims herein were argued in the Brief and were included in Appendix I of that Brief. It is Appellant's position that the amended claims are in better form for appeal.

For instance, the amendment to claims 1-2, 14, 26, 30-31, 37, and 53-58 addressed the 35 U.S.C. § 112, second paragraph, rejection of claims 1-8, 11-12, 14, 16-17, 19-22, 24, 26-28, 30-44, and 47-58 over the phrase "lymphocytes modified *ex vivo*". The amendment to claims 14 and 31 (both in Group I) to recite "wherein the arabinogalactan, biological or functional equivalent thereof, in the medium results in a high post-thaw survival rate for the freshly isolated lymphocytes, hematopoietic stem cells, or lymphocytes which are activated or genetically modified *ex vivo*" provides consistency to the claims in Group I (note that independent claims 1, 53 and 55, which are also in Group I, already recited this phrase). The amendments to claims 26 and 58 (both in Group II) provide consistency to and correct grammatical errors in those claims. The amendments to claims 6, 14, 20, 54, 56, and 57 correct grammatical errors, e.g., the insertion of "the" or "and glycerol" or the deletion of "or a".
